Subject: RE: Thilman Paper Pellet Agreement(2)

Hi Bert,

I spoke with Ted and the following language could be helpful with respect to the pellet specifications:

Quantity: Firm annual tonnage to be purchased: a minimum of 40,000 tons with a maximum of 4,500 tons per month. Seller shall supply engineered fuel pellets to the Buyer's plant located in L'Anse, Michigan.

Pellet Energy Content: Target : 11,250 Btu/lb. (Base Btu).

Pellet Specifications: ½, ⅝, or ¾ inch diameter by ¼ to 3-inch length renewable paper pellets. Typical quality: 11,250 Btu/lb, 5.5 % Moisture, 6.5% Ash, 0.17 % Sulfur. If pellet quality falls outside expected range Buyer and Seller will mutually agree upon remedy.

Pellet Price: The base price of engineered fuel pellets under this contract is \$65 / ton FOB Seller's plant in Green Bay, WI.

Price Basis/Transfer of Title: FOB Seller's plant/Upon shipment, Green Bay, WI, or other location by mutual agreement.

Quality

Determination: Seller's in-house laboratory (Btu/lb. test) for purposes of price determination and invoicing.

Cost of Btu/lb. in-house laboratory analysis will be paid by Seller for standard daily Btu test. Buyer shall pay costs if it opts to perform additional testing with an outside laboratory on additional samples.

Pellet Samples: Seller will collect representative samples from daily production. Btu will be tested from these samples. A monthly composite sample will be prepared by combining the daily representative samples.

Seller will test monthly composite sample at a certified third-party laboratory. Results of the monthly composite test will be provided to Buyer on a periodic basis. These tests will consist of short proximate analysis (Btu/lb., Moisture, Ash, Chlorine, and Sulfur). If buyer requires a split to test independently a sample will be made available. Any additional testing required by Buyer will at Buyer's expense.

Shipping Schedule: Approximate equal monthly shipments of 4,500 tons per month. Annual shipments of 40,000 tons. Buyer and Seller will work together to schedule shipments during fuel production and power plant outages and other situations that require adjustments to shipping schedules.

Shipping: Engineered pellet fuel will be delivered to Buyer's plant from Seller's production plant via truck.
Shipping costs are included in the base price. Seller agrees to arrange shipping.

Payment Terms: Invoice weekly. Payment will be due net 30 days upon receipt of invoice. Two invoices will be issued during weeks that span the end of the month and the beginning of the month.

Force Majeure: If, by reason of: (i) strikes or other labor troubles, (ii) governmental prohibitions, preemptions, restrictions or other controls, (iii) shortages of fuel, supplies or labor, (iv) acts of God or the elements (such as tornado, hurricane, flood, or abnormally inclement weather for the season), (v) civil commotion, acts of war, terrorism or the public enemy, (vi) fire or other casualty or catastrophe, (vii) accidents or mechanical breakdowns, (viii) any other cause beyond an affected party's reasonable control (excluding, however, any financial inability), or (ix) the making of alterations, installations, improvements, repairs, additions or other physical change in, to or about an affected party's premises (the events described in the preceding clauses being herein referred to as "force majeure"), the observance, performance or compliance with, any non-monetary obligation (i.e., any obligation other than the obligation to pay a sum of money) on the part of an affected party to observe, perform or comply with, is prevented or delayed, including the inability to supply, provide or furnish, or a delay in supplying, providing or furnishing, any service expressly or implicitly to be supplied, provided or furnished, or the inability to make, or a delay in making, any alteration, installation, improvement, repair, addition or other physical change in, to or about such affected party's premises or any other portion thereof, or the inability to supply, or a delay in supplying, any equipment, fixtures or other materials, then, for so long as such affected party shall be unable to observe, perform or comply with, or shall be delayed in the observance, performance or compliance with, any such non-monetary obligation, this Agreement and such affected party's obligation to observe, perform and comply with any such non-monetary obligation shall be excused for the period during which the force majeure prevents or delays such observance, performance or compliance.

We can speak further whenever you would like.

Steve

Subject: Thilman Paper Pellet Agreement(2)

Steve – see model agreement used by Green Bay in the past. Do the objective, technical information for the pellets acceptable for LWEC? The concern of using language like “pellets quality consistent with the prior 12 months” is that it becomes more difficult to enforce.

Let me know.

Thanks,

Bert

	Typical-Dry Basis	Rejection Limits-Dry Basis
Sulfur Content (% by weight)	<u>0.17</u>	<u>[0.5] Max</u>

Each party acknowledges and agrees that the other party would be damaged irreparably in the event any of the provisions of this Agreement are not performed in accordance with their specific terms. Accordingly, pending completion of arbitration pursuant to this provision, either party shall have the right to seek a temporary restraining order, injunctive relief or other interim or provisional relief on the grounds that such relief would otherwise be available at law or in equity. If any such relief is obtained, the arbitrator will address the continuance, modification or termination of such relief, and the decision regarding such relief shall be binding on the parties.

The arbitration shall be conducted in the English language in Madison, Wisconsin. The Arbitral Tribunal conduct a hearing no later than 90 days after delivery of the Request for Arbitration, and a decision shall be rendered by the Arbitral Tribunal within 30 days after the final hearing.

The arbitration award shall be in writing and shall specify the factual and legal bases for the award. Except with respect to (i) Seller's failure to ship the Minimum Amount (absent Force Majeure applicable to Seller) or (ii) Buyer's failure to pay for conforming Pellets actually received by Buyer up to the Minimum Amount (absent Force Majeure applicable to Buyer), neither party shall be entitled to, and no award shall include, any amount for, lost profits or revenues, lost business opportunities, business interruption, or punitive or exemplary damages for any claim arbitrated pursuant to this Agreement.

All decisions of the Arbitral Tribunal shall be final and binding on the parties and may be entered against them in any court of competent jurisdiction. Any judgment rendered by the Arbitral Tribunal against a party may be executed against such party's assets in any jurisdiction where the party has assets.

Each of the parties irrevocably submits to the non-exclusive jurisdiction of the appropriate courts in the country in which it has assets and in the United States in any legal action or proceeding relating to such execution of judgment.
